

I believe that Sinclair Broadcasting's decision to air a program that is blatantly anti-Kerry right before an election is not serving the public interest--an obligation the company has as it uses public airwaves free of charge.

I am very concerned about a few giagantic media companies controlling what people view and I don't buy the argument that nowadays people get their "information" from many sources, such that we needn't worry about television stations under the control of a few. I believe that most people spend more time in front of television sets than in fron of computers.

Sinclair is not serving the public and should NOT be allowed to air one sided shows.
